AGING BIOLOGY UPDATE

BROUGHT TO YOU BY THE
**UAB NATHAN SHOCK CENTER OF EXCELLENCE
IN THE BASIC BIOLOGY OF AGING**

Featured

[Health-Body Mass Index relationship is highly context-dependent](#)

[The existence of molecular aging clocks does not imply an aging program](#)

[Why-*this* newsletter editor doesn't use AI either](#)

Basic Biology

[Intermittent fasting slows aging of killifish intestinal stem cells](#)

[Unrestrained activity of the full-length C/EBP \$\alpha\$ isoforms extends life and health in turquoise killifish](#)

[Advanced glycation end products in hair are early markers of aging](#)

[Nerve-associated macrophages restrain age-related inflammation in mouse adipose tissue](#)

[NF- \$\kappa\$ B, MAPK, and MAPK-activated JNK and AP-1 transcription factors alone cannot induce renal amyloidosis in old rats](#)

[Three more drugs that extend life in male, but not female, mice](#)

Energetics/Nutrition

[Retrospective US study suggests 12-hour eating window maximizes survival](#)

RCT: [Hype or hope: A sustainable online exercise program?](#)

[Diet and geography associate with gut microbiota and health of older adults](#)

[Long-term graded calorie restriction improves bone health and motor coordination in male C57BL/6J mice](#)

[Transgenerational inheritance of diminished ovarian reserve triggered by prenatal propylparaben exposure in mice](#)

Preprint: [Intermittent fasting extends life in male mice only](#)

Epidemiology/Demography

[New blood methylation test to quantify aging across 11 physiological systems](#)

[A global analysis of cause-specific noncommunicable disease mortality from 2001 to 2019](#)

[Being born and residing in the South accelerates multiple measures of biological age](#)

[Can AI predict human disease risk for more than 1,000 diseases?](#)

[Longer but not better: two decades of end-of-life conditions in older adults](#)

[Older adults report lower chronic pain scores than younger adults](#)

[Older brothers close in age reduce the survival of sisters, but not brothers, in preindustrial individuals in Switzerland](#)

[Cause-specific dynamics of change in life expectancy at age 65 in the United States, Canada and Latin America, 2000-2019](#)

[Cognitive decline leads to larger loss of life expectancy in women than in men](#)

Clinical

[Influenza vaccination reduces the risk of major adverse cardiovascular events and acute coronary syndromes in older adults](#)

[Medicare \(dis\)Advantage plans linked to greater increases in extended hospital stay and discharge to skilled nursing facilities](#)

[Features of immune aging are present in the initial stages of rheumatoid arthritis](#)

Review: [Measuring and aligning patients' goals in geriatric and palliative care](#)

Women's Health and Aging

[Menopausal hormone therapy: timing matters](#)

RCT: [Elinzanetant treats moderate to severe vasomotor symptoms in postmenopausal women](#)

[A critical framework for research on Black women in menopause](#)

Review: [DNA damage response signaling in oocytes in response to chemotherapy](#)

Preprint: [Higher insulin levels in perimenopause associated with earlier menopausal symptoms](#)

Evolution/Comparative

[Male reproductive aging observed in some wild mammal populations](#)

[Is avian longevity and cancer resistance a relic of dinosaur ancestry?](#)

Review: [Current status of putative biomarkers of aging in primates](#)

Review: [Evolutionary insights into human brain disease](#)

Novel Organisms

[Sons, but not daughters, of older fathers have shorter lifespans in the long-lived Alpine swift](#)

[Sex-specific metabolomic aging profiles in rhesus macaques](#)

Review: [What do we know about cancer resistance in turtles?](#)

Review: [Ant aging from the “superorganism” perspective](#)

Review: [The unusual naked mole-rat immune system](#)

Resources

[Database of age-related circular RNAs from 7 distantly related species and 24 tissue types](#)

Caregiving

[Experiences of adult children caring for parents aging in place](#)

[An integrative palliative, geriatric, and rehabilitative approach to care and support for older people and their caregivers](#)

[Daily family caregiving, but not intermittent caregiving, increases depression risk among older caregivers](#)

[The hospice caregiving gap is a significant deficit in Medicare support](#)

Policy/Ethics

[The Manufacturer Discount Program results in substantial saving for Medicare](#)

Commentary

[A midpoint reckoning: the United States and the UN Decade of Healthy Aging](#)

[To improve health in the United States, focus on women](#)

Odd and Ends

[Urban and neighborhood design for walkability: sex matters here too](#)

[A quality of dying index for adults aged 80 and older](#)

Book Review: [Proof: the art and science of certainty](#)

Aging Biology Update is brought to you by the **UAB Nathan Shock Center** and compiled ***without AI***, by Kathleen Fischer and Steven Austad. [Subscribe to this newsletter](#).
