

CALL FOR APPLICATIONS: Pilot Project Grants, San Antonio Nathan Shock Center

The **San Antonio Nathan Shock Center Research Development Core** announces the availability of pilot project grants for work performed by the SA Shock Center cores. The following cores are available to provide services (see <https://nathanshock.barshop.uthscsa.edu/cores/research-development/rfa-support-core-service/>):

- **Aging Animal Models and Longevity Assessment Core** (Jim Nelson, PhD, nelson@uthscsa.edu, Adam Salmon, PhD, salmona@uthscsa.edu)
- **Analytical Pharmacology and Drug Evaluation Core** (Brett Ginsburg, PhD, ginsburg@uthscsa.edu, Marisa Lopez-Cruzan, PhD lopezcruzan@uthscsa.edu)
- **GeroMetabolism Core** (Xianlin Han, PhD, hanx@uthscsa.edu, Elizabeth Fernandez, PhD, fernandeze@uthscsa.edu)
- **Pathology Core** (Yuji Ikeno, MD, PhD, ikeno@uthscsa.edu)

For questions about whether your project can be assisted by any of our cores please contact the appropriate core leaders listed above. For general questions contact Peter J. Hornsby, PhD, Research Development Core Leader, hornsby@uthscsa.edu.

One-page proposals and proposed budgets, developed in conjunction with the above core leaders, may be submitted any time; in any case please submit by February 15 for possible start dates beginning March 1 2025.
