

# Nothobranchius symposium 2020

## First announcement

4th biennial international symposium on annual killifish biology  
(following symposia in Pisa, Jena and Cologne)

We welcome:

1. contributions to any aspect of the turquoise killifish (*Nothobranchius furzeri*) biology, including a full range from biomedical to ecological research
2. contributions on other killifish taxa and on topic closely related to killifish-based research agenda
3. contributing researchers and people considering to use killifish in their future research

## Brno, Czech Republic

**3–5 June 2020**

Brno is accessible via **Vienna Airport** (approx. 2 hours by direct shuttle bus or train), **Prague Airport** (3 hours by bus or train), **Brno Airport** (small airport, currently serving only low-cost flights from London Stansted, Milano/Bergamo, and Berlin/Schoenefeld), or **Bratislava Airport** (intermediate-size airport in Slovakia, 1.5 hours by bus or train).

Brno is a university city (400,000 inhabitants), where G. Mendel lived and worked.

### Organised by

**Martin Reichard** (reichard@ivb.cz), Institute of Vertebrate Biology, Czech Academy of Sciences  
**Ondřej Slabý**, CEITEC, Masaryk University, Brno

### Venue and accommodation

Venue (Faculty of Economics and Administration, Masaryk University, Lipova 41a, Brno) is located near city centre, with a range of accommodation at all price categories within short walking distance.

### More information

Second half of 2019: launch of dedicated website  
February to April 2020: abstract submission, registration

**We look forward to meet you in Brno!**
